

2008 Race Tip # 12 – Drive Belt Defect

A small number of drive belt P/N 3211114 has been determined by the manufacturer to be defective. These belts can be identified by the brown lot numbers on the belt located approximately 5 inches from the part number. The suspect belts have the number **A729xxx** and the number **434**.

If you have one of these belts, it can be exchanged for a new belt at the Polaris Support Truck or can be sent to Polaris Racing, 10303 Calumet Ave., Rothschild, WI. 54474; Attn: Bill Rader. Please include your return address and phone number.
